APPLICATIONS BUILT

React Reversi
- Link: http://reversi-project.herokuapp.com/aigame/ GitHub: https://github.com/songwright/React-Reversi
- The app allows a user to play Reversi online against other players or against the app.
- Employed CSS coding and JSX page development in React, using CSS Grid, Bootstrap, and Adobe Illustrator.
- Utilized HTML, CSS, MySQL, Passport, Sequelize, Node.js, Material.UI, and Heroku.

The Wizard
- Link: https://the-wizard-project.herokuapp.com/ GitHub: https://github.com/songwright/project-2-the-wizard
- This app uses the Wolfram Alpha API to retrieve the answers to questions about science and math.
- The app saves the history of the users questions in a user database. We used HTML, CSS, Bulma, Bootstrap, Sequelize, Node.js, Passport, and Heroku for deployment.
- Managed production organization, quality assurance, and also added an optional speech-to-text feature.
